# MEDPROS CHANGES

---

**Identifying Soldiers Who Are Non-Deployable for  
Medical Reasons**

**DATE: 20120322**

**Unclassified - FOUO**

# BRIEFING OUTLINE

**PURPOSE:** To provide information on how and why the Army Medical Department is changing the Individual Medical Readiness (IMR) Elements in the Medical Protection System (MEDPROS)

1. Background
2. Road Ahead - New Deployment Limiting (DL) medical condition ratings:
  - a. DL1 – Profile Codes F, V, X (MR 3B) or Permanent P3/4 not in eProfile & no Profile Code S/T/W/Y (boards)
  - a. DL2 – MAR2 initiated, not completed (MR 3B)
  - b. DL3 – MEB initiated, not completed (MR 3B)
  - c. DL4 – Temp Profile >30 days (except pregnancy) (MR 3B)
  - e. DL5 - Pregnant (will not be DL4 too) (MR 3B)
  - f. DL6 – Temp Profile <31 days (MR 3A)
3. Each rating will be covered more in this briefing.
4. Impacts by Compo and Major Command

# BACKGROUND

**The primary purpose of the new MEDPROS Deployment Limiting (DL) medical condition conversion is to take the current MND rating of Yes or No and break it out to provide Commanders with more granularity and visibility of all existing medical factors resulting in non-deployable ratings for their Soldiers.**

## **BACKGROUND (cont)**

- **Current MEDPROS IMR elements of MND (Medical Non-Deployable) and LDP (Limited Duty Profile) are not clearly defined or supported by any regulation or official document.**
- **Today, the LDP category is used autonomously by Commanders to document otherwise unsupported medical conditions – resulting in Soldiers being rated as MR 3B and ineligible for deployment and assignments.**
- **The MND category does not clearly identify the specific reason(s) a Soldier is non-deployable.**
- **Chapter 11-4b(1) thru (5) of AR 40-501 outlines the multiple deployment limiting (DL) medical conditions that prevent a Soldier from deploying.**

# ROAD AHEAD

- **MND (Medical Non-Deployable) will be removed from MEDPROS and replaced by the six specific Deployment Limiting (DL) medical condition codes.**
- **LDP (Limited Duty Profile) IMR element will be removed from MEDPROS and will not be replaced as it is not supported by any official regulation or policy.**
- **After the conversion, Soldiers may be rated in more than one DL category and those that are will have all applicable DL categories reflected on their IMR Record.**
- **When fully implemented, all DL categories will be auto-fed by entries documented in eProfile System.**
- **The DL1-DL6 Category labels were created simply for ease of display in MEDPROS Reporting capabilities.**

# ROAD AHEAD (Cont.)

- **Deployment Limiting medical condition 1 (DL1)**
  - **Soldiers assigned Profile Codes F, V, or X**
  - **Soldiers with a historical permanent PULHES (P3/P4) rating and no evidence of board completion (i.e., assignment of Profile Codes S, W, Y or initial entry waiver T code) and profile is NOT documented in eProfile.**
  - **Crosswalk: AR 40-501, Para 11-4b(3), when no indication MAR2 or MEB initiated as noted in para 11-4b(3).**
  - **Regulation revision to support identification of Soldiers with Profile Codes F and V as non-deployable (already in Table 7-2, but not in para 11-4b(3) being proposed.**

## ROAD AHEAD (Cont.)

- **Deployment Limiting medical condition 2 (DL2)**
  - **Soldiers with MAR2 initiated as noted in block 7 of an eProfile created DA Form 3349, but have not completed the board process (profile code “W” not assigned).**
  - **New MEDPROS Reports will display how many days Soldier has been in MAR2 process.**
  - **Crosswalk: AR 40-501, Para 11b(3)(a)**

# ROAD AHEAD (Cont.)

- **Deployment Limiting medical condition 3 (DL3)**
  - **Soldiers with an MEB initiated in block 7 of an eProfile created DA 3349, but not yet completed (Profile Code S or Y\* not assigned).**
  - **MEDPROS Reports will display how many days Soldier has been in MEB process.**
  - **Crosswalk: AR 40-501, Para 11-4b(3)(a)**
  - **\*Proposal submitted for AR 40-501 revision to support the assignment of Profile Code “S” in Para 11-4b(3)(b) for those completing the MEB process. Currently those Soldiers could have an “S” or “Y” profile code assigned.**

## ROAD AHEAD (Cont.)

- **Deployment Limiting medical condition 4 (DL4)**
  - **Soldiers with a Temporary (T3/T4) Profile documented in eProfile and...**
  - **the original duration of the temporary profile is greater than 30 days (this category will NOT include Pregnant females, see next slide for DL5 rating).**
  - **Soldiers in this category who, up until now, were being converted to MR3A when their profile was within 30 days of expiring will now be classified as MR3B until that profile expires.**
  - **Crosswalk: AR 40-501, Para 11-4b(4) and Para 11-5d(2)**

## ROAD AHEAD (Cont.)

- **Deployment Limiting medical condition 5 (DL5)**
  - Soldiers with pregnancy profile documented in eProfile or pregnancy status “Yes” indicated in MEDPROS (*the latter capability being removed as soon as practical once eProfile template mandated use for Pregnancy Profiles*).
  - To avoid double counting, these Soldiers will NOT also be rated as DL4 unless they have other PULHES factors supporting a DL4 rating.
  - Current “PRG” element converted to DL5 for continuity in the ratings of deployment limiting conditions.
  - Crosswalk: AR 40-501, Para 11-4b(2) Para 11-4b(4) and Para 11-5d(3)

# ROAD AHEAD (Cont.)

- **Deployment Limiting medical condition 6 (DL6)**
  - **Soldiers with a Temporary Profile (T3/T4) documented in eProfile and..**
  - **the original duration of the temporary profile is less than 31 days.**
  - **this is the only DL Category where MR 3A is assigned. All other DL categories (1-5) result in assignment of MR3B.**
  - **Crosswalk: AR 40-501, Para 11-4b(4) and Para 11-5c(1)**

# Medical Readiness (MR) Classification

The Medical Readiness (MR) Classification replaced the Fully Medically Ready (FMR) status for the Soldier. The MR Classification provides a more realistic readiness status of the Soldier and their ability to deploy to an austere environment in a timely manner.

- » Each Soldier will be assigned a Medical Readiness (MR) Classification. All Soldiers with an MR 1 or 2 will be considered as Medically Available and all Soldiers with an MR 3A, 3B, or 4 will be considered as Medically Non-available. The overall classification will be based on the lowest classification for a Soldier. This will be based on the following criteria:
  - » **MR 1 – Meets all Requirements and Dental Readiness Class 1 or 2 (Green)**
  - » **MR 2 – Correctable within 72 hours (Amber). Soldier is Deficient in one of the following:**
    - » **DNA**
    - » **HIV**
    - » **Immunizations (IMM) (Routine Adult Immunization Profile)**
    - » **Individual Medical Equipment (IME) - (Mask Inserts(1MI), 2 pair eye glasses (2PG), Military Combat Eye Protection Inserts (MCEP-I), Medical Warning Tags (MWT), and Hearing Aid w/Batteries (HAB)**
  - » **MR 3A - Correctable within 30 Days (Red). Soldier is Deficient in one of the following:**
    - » **Dental Readiness Class 3 (DRC3)**
    - » **Temporary profiles with a 3 or 4 in the PULHES that is less than 31 days-DL6**
  - » **MR 3B - Correctable in more than 30 days (Red). Soldier is Deficient in one of the following:**
    - » **Permanent Profile without a completed board and/or Profile Code of “F, X, V” - DL1**
    - » **Permanent Profile with a 3/4 in the PULHES, MAR2 in progress- DL2**
    - » **Permanent Profile with a 3/4 in the PULHES, MEB/PEB in progress - DL3**
    - » **Temporary profile with a 3/4 in the PULHES that is greater than 30 days - DL4**
    - » **Pregnant - DL5**
  - » **MR 4 – Status is unknown (Red). Soldier is Deficient in one of the following:**
    - » **Periodic Health Assessment**
    - » **Dental Readiness Class 4**

# IMPACT ON MR RATINGS (COMPO)

| ARMY<br>COMPO  | TOTAL<br>ASSIGNED | MR1           |              | MR2           |              | MR3A          |              | MR3B          |              | MR4          |             |              |             |              |             |              |             |               |              |               |               |

| National Guard | 359045            | 74666         | 20.8%        | 126880        | 35.3%        | 170323        | 47.4%        | 119092        | 33.2%        | 30766        | 8.6%        | 27466        | 7.6%        | 26711        | 7.4%        | 28775        | 8.0%        | 56579         | 15.8%        | 56832         | 15.83%        |
| Army Reserve   | 204179            | 30068         | 14.7%        | 57089         | 28.0%        | 101110        | 49.5%        | 74212         | 36.3%        | 16068        | 7.9%        | 14310        | 7.0%        | 16041        | 7.9%        | 17401        | 8.5%        | 40892         | 20.0%        | 41167         | 20.16%        |
| <b>Total</b>   | <b>1115884</b>    | <b>234908</b> | <b>21.1%</b> | <b>552279</b> | <b>49.5%</b> | <b>574791</b> | <b>51.5%</b> | <b>258979</b> | <b>23.2%</b> | <b>76055</b> | <b>6.8%</b> | <b>62994</b> | <b>5.6%</b> | <b>81095</b> | <b>7.3%</b> | <b>91859</b> | <b>8.2%</b> | <b>149035</b> | <b>13.4%</b> | <b>149773</b> | <b>13.42%</b> |

The majority of MR Category changes above (and on following slides) are explained below:

- **MR2 decrease & MR1 increase** – all DRC2 personnel changing to MR1
- **MR3A decrease & MR3B increase** – moving all personnel who changed to MR3A when original profiles >30 days went under 31 days, now moved back under MR3B.
- **MR4 increase (small)** – mostly due to Soldiers who were MR3B due to LDP Y value now being moved to other MR ratings with the removal of LDP logic.

### MEDPROS UPDATES

Latest Message - 2012/01/04  
**Removal of MEDPROS Executive Report**  
The MEDPROS Program Office has directed the removal of the PULHES P3/P4 Profile report from the MEDPROS Web Reporting Executive Reports effective 5 Jan 2012. The report, which rolled up numbers by Compo for personnel with specific profile codes and/or PULHES factors, is causing confusion as it is not all inclusive of Profile codes that impact on Soldier's overall Medical Readiness status making it conflict with other reports provided in MEDPROS.

# Impact on Web Reporting

## New UMR Screen - Data Report

The new default UMR Report is the data report that only shows Soldiers in the Unit/TF who have one or more UMR shortfalls. The Report legend provides definitions of the column values on this report.

The bottom of the report provides the usual summary by each IMR category.

# Impact on Web Reporting - New UMR Screen - Status Report

The default UMR Report data report can be changed to a status report using the Modify filters dropdown. The status report (shown here) provides the Green/Red status for each IMR element. The default report only shows those with deficiencies, but user can also change the filter to request a report on "All Assigned" using the Modify Filter dropdown.

### MEDPROS UPDATES

Latest Message - 2012/01/04  
**Removal of MEDPROS Executive Report**  
The MEDPROS Program Office has directed the removal of the PULHES P3/P4 Profile report from the MEDPROS Web Reporting Executive Reports effective 5 Jan 2012. The report, which rolled up numbers by Compo for personnel with specific profile codes and/or PULHES factors, is causing confusion as it is not all inclusive of Profile codes that impact on Soldier's overall Medical Readiness status making it conflict with other reports provided in MEDPROS.

## New Installation MR 3B Personnel Rpt

**MEDPROS**  
FORCE HEALTH PROTECTION

Home Medical Readiness Immunizations DHA MRC Alerts Referral Reports Executive Reports

### Installation MR3B Personnel Roster

MODIFY FILTERS REPORT LEGEND

**Report definitions**

The purpose of this report is to identify all personnel who either started the report month as an MR 3B and were some other MR rating (1, 2, 3A, or 4) at the end of the report month, OR were some MR rating other than MR 3B at the beginning of the report month and were a 3B at the end of the report month.

|                    |   |
|--------------------|---|
| Name               | This is the Soldiers name.  |
| Rank               | This is the Soldiers rank.  |
| SSN                | This is the Soldiers Social Security Number (only the last four digits are displayed).  |
| Age                | This is the Soldiers age.   |
| Sex                | This is the Soldiers sex.   |
| MOS                | This is the Soldiers Military Occupational Specialty  |
| UIC                | This is the Soldiers Unit Identification Code as recorded in the TAPDB.   |
| Current MR Rating  | This indicates the Soldiers current Medical Readiness Rating.   |
| 3B Start Date      | This indicates the date the Soldier started the profile that triggered a 3B rating. This field indicates the date the Soldier started the profile that a 3B rating. Historical data has only been captured since 1 March 2012, therefore the MR 3B Start Date for any Soldiers who started a month as an MR 3B, the earliest the 3B rating will show as starting is 20120301. Those whose MR 3B rating started after that date will show the actual start date of their MR 3B rating. |
| 3B End Date        | This indicates the date the Soldiers Medical Readiness Rating changed from a 3B rating.   |
| Previous MR Rating | This indicates the Soldiers Medical Readiness Rating prior to the 3B start date.  |

*All Dates are in YYYY/MM/DD Format*
