

# *TRICARE Overseas Program*

## Prime Traveler Benefit

### International SOS

If you live in Korea and experience a **medical emergency** but there is no military treatment facility close by, go to the closest Emergency Room of any local hospital and call International SOS.

International SOS will assist with payment for emergency and urgent care so you won't incur up-front, out of pocket costs or claims to file. In other words, services will be cashless and claimless.

### Korea Calling Instructions
